CATARRH CAN BE CURED. MURDOCK'S CATARRH CURE. IT GOES TO EVERY PART. SURE, SAFE AND PLEASANT.

For years has the medical fraternity sought a reliable and sure cure for Catarrh. In this endeavor many hundreds of nostrums have been offered to a suffering public, and the health of thousands have been completely ruined by taking them, these various compounds causing the worst forms of Dyspepsia. Sprays and ointments are also worthless, as it is impossible to reach the affected parts in this manner.
MURDOCK'S CATARRH CURE is a new and scientific preparation and is to be smoked in a pipe, thereby the fumes and smoke going over the entire system affected by the disease. It relieves instantly the worst forms of Asthma, Bronchitis, Hay Fever, Colds in the Head and all forms of Catarrh, no matter what shape, and cures when treatment is continued for reasonable time. No matter how little you are affected, don't delay treatment. Catarrh comes often from simple colds. Like all new and valuable preparations, you will find others saying theirs are just as good. Beware of imitations, as they are worthless. WE ONLY ASK A TRIAL TO CONVINCE. Mailed to any address, prepaid, on receipt of price.
Put up in tin boxes, \$1.00 per box; treatment for 30 days.

The Fiscal Court convened Monday with all the members present. An accident unparalleled in Ohio county occurred in the West Providence community, Dec. 30th. The scene of this awful misfortune was the happy home of Mr. Noah Burden. Mrs. Burden was out on an errand at the well, leaving her little children alone in the room. The elder was in advance of two years. The baby was about three months old. The little one was tied in a rocking chair and placed near the fire for comfort. It was left in care of the two-year-old child. In the mother's absence it is supposed that the child was rocking the little one when an unfortunate moment the chair was overturned. Both of the little ones landed in the fire remaining there until screams hastened their mother's return. After a day of awful suffering the baby died early Saturday evening. Funeral exercises were conducted at West Providence Sunday by Rev. H. Brown. The elder child was badly burned and not expected to recover, but at last reports it yet lives.

"Grasp All and Lose All."

Many people are so intent on "grasping all" that they lose strength of nerves, appetite, digestion, health. Fortunately, however, these may be restored by taking Hood's Sarsaparilla, which has put many a business man on the road to success by giving him good digestion, strong nerves and a clear brain. It does the same thing for weak and tired women.

Goebel has seen that he cannot get the legislature where he had the convention, and consequently the caucus to-night will consider nothing but the nominations for legislative offices — Owensboro Inquirer.

Gov. Taylor's strong and patriotic message to the legislature carries directly to that body the powerful arguments that he made before the people during the canvass preceding the election. It is a state paper that has never been exceeded by the work of any Governor of Kentucky in dignity and power of expression or in the clearness with which it treats of the fiscal and administrative affairs of the commonwealth. — Commercial.

ONE OF THE COPPER COOLERS.

Have You Heard Of It?

You may have heard about SCOTT'S EMULSION and have a vague notion that it is cod-liver oil with its bad taste and smell and all its other repulsive features.

It is cod-liver oil, the purest and the best in the world, but made so palatable that almost everybody can take it. Nearly all children like it and ask for more.

SCOTT'S EMULSION

looks like cream; it nourishes the wasted body of the baby, child or adult better than cream or any other food in existence. It bears about the same relation to other emulsions that cream does to milk. If you have had any experience with other so-called "just as good" preparations, you will find that this is a fact.

The hypophosphates that are combined with the cod-liver oil give additional value to it because they tone up the nervous system and impart strength to the whole body.

How to Get Rich.

The way to get rich is to trust nobody, befriend none, get all you can, take all you can get, stint yourself and everything that belongs to you, be a friend to no man, let no man be a friend of yours, heap up interest, be mean, miserly and despised for some twenty or thirty years, and riches will come to you as sure as disease, disappointments and death, and when pretty near enough wealth has been accumulated by a disregard of the charities of the human heart, and at the expense of every enjoyment, death will finish the work, and the body is buried, the heirs dance and fight over what you have left, and the spirit goes —where? By all means get rich. It will pay—the devil says so.

"What's in a name?" Everything, when you come to medicine. When you get Hood's Sarsaparilla you get the best money can buy.

The first people who will live in the twentieth century, according to the computation of a writer in the January Ladies' Home Journal, are the inhabitants of a group of mid Pacific islands. To women who contemplate visiting the Paris Exposition next year "Edith and I in Paris," in the same magazine will prove helpful and interesting.

"The Boer Girl of South Africa," "The Mother of the Stars," summarizing Maria Mitchell's achievements, and "The Home Coming of the Nankannies," are also features of notable interest in the January Journal.

Franklin Fyles writes on "The Rehearsal of a Play," and the author of "Mr. Dooley" gives a convulsively funny account of Molly Donahue's muscical. Albert W. Smith contributes more of his exquisite nonsense verses. Edward Bok writes in protest against "A National Crime at the Feet of American Parents," and in contrast is shown "The New Idea in Teaching Children." Ian MacLaren's discourse on "The Minister and the Organ," and the last of the letters that passed between Gail Hamilton and Whittier brings the correspondence almost to the close of the poet's life. A score or more articles of special value to women touch every phase of home-making. By The Curtis Publishing Company, Philadelphia. One dollar a year; ten cents a copy.
